

## ***Joel Clarkston remembered***

Most of you did not know Joel Clarkston. He was an active member of this club, and I had the good fortune to be one of his friends. Joel was a retired Canadian air force major, and had flown the voodoo among other aircraft. He was married with children and lived at Kye Bay in Comox. He was active in his community and active in local politics. He was also very active in Comox Air Base museum. Joe loved to build and fly unusual scale models. We were at several scale meets together and I remember well a few of his planes, like the Paul Bolton Defiant painted up in night fighter colors, and his Russian IL2 Stormovik painted in winter white. Sadly , we lost Joel in a helicopter accident where he was working up north. He is very much missed by the people that knew him, and this scale meet is dedicated to him.

Thank you

Tom Feenstra
